HOW TO USE THE DOCUMENTATION

USING ADVISES

On the "Download" web page from Metraplan, you can find our documentation, which will help you in your task and support your work.

Metraplan advises you:

- ◆ to create a directory named "Metraplan's documentation" (for example) on your own computer
- ◆ to download the documents you need to promote Metraplan's products.

When the loading is done:

- ◆ you could print these documents and use them as original ones with your customers
- ◆ With the view to getting a technical sheet of better quality, Metraplan advises you to use a paper with a weight of 120 grams or higher.

These documents will be brought up to date every other month, so please consult the web site of Metraplan from time to time in order to put you in the picture about our novelties.
